

SHORT SUPPLY CHAIN KNOWLEDGE AND INNOVATION NETWORK

D1.1: Quality Assurance Planning Manual

WP 1, Task 1.1 – Quality assurance and ethical compliance planning

Authors: Patrick CREHAN (CKA) with the support of UniFg and Wps Leaders

Abstract

The Quality Assurance Planning Manual is a QA planning guide intended for use by the Project Management Team, Work Package and task Leaders of the SKIN “Short supply chain Knowledge and Innovation Network”. The Manual has been developed by the Quality Coordinator (Patrick Crehan – CKA) with the support of the Project Coordinator (UniFG) and all Wp Leaders contribution.

It describes and explains the SKIN Project Quality Assurance process. It provides guidelines for managers responsible for the delivery of project outputs. In the Manual have been included templates for use in QA planning and reporting, as well as examples to illustrate the use of these templates.

This project has received funding from the European Union’s Horizon 2020 research and innovation programme under grant agreement N°728055.
